

Navigate the Complexities of Mergers, Acquisitions and Divestitures

Up to 50%

of mergers and acquisitions (M&A) fail to deliver the gains business leaders anticipated.¹ **IT has one of the most critical roles in the integration process** — and can make or break your next M&A deal.

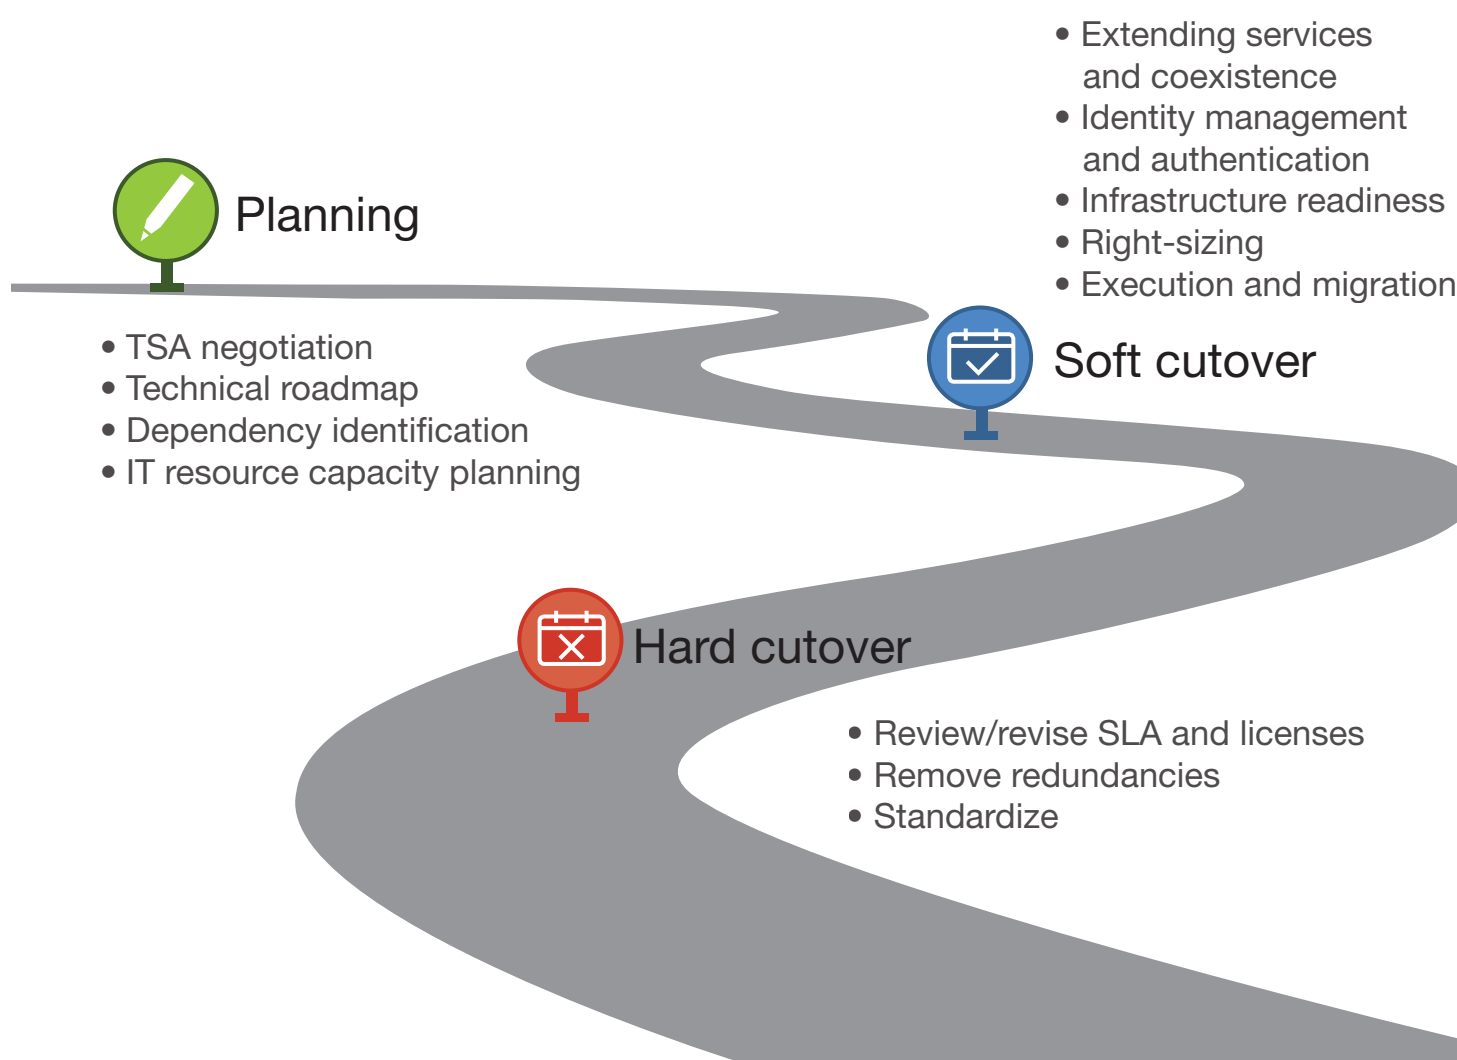

¹ "Mergers and Acquisitions failure rates and perspectives on why they fail." International Journal of Innovation and Applied Studies. July 2016.

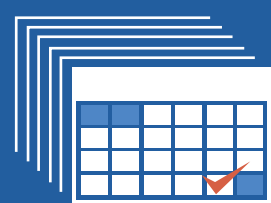

Build a more disciplined framework for IT integration or separation into your transaction planning and execution with NTT DATA.

Our roadmap for IT integration and divestitures:

With our strategic approach, you can:

Deployed a completely new, separate IT infrastructure in less than 6 months

NTT DATA helped **Wayne Fueling Systems** build a secure and scalable environment after a divestiture in less than six months, enabling an array of applications and services, including a customer-facing commercial cloud app.
